

PERFECTION: SKIN REJUVENATION THE FUTURE OF

- REFRESHES
- RENEWS
- REVITALIZES
- ALL SKIN TYPES

The Perfect Derma Peel is a revolutionary, medium-depth chemical peel that transforms your skin to look younger and healthier in just one week! It can be used on all skin types and requires no pre-peel preparation. The process, applied by a medical professional takes less than 15 minutes and is virtually pain-free.

The Perfect Derma™ Peel combines
Glutathione with
TCA · Retinoic Acid · Phenol · Salicylic Acid · L-Ascorbic Acid · and Kojic Acid

Salicylic Acid dissolves surface cells allowing **TCA**, **Phenol**, and **Retinoic Acid** to penetrate into the dermis, stimulating cellular renewal by removing damaged skin cells and replacing them with healthy new ones.

Kojic Acid is a powerful lightening agent and proven to increase collagen and elastin production, resulting in skin that is brighter and tighter.

L-Ascorbic Acid is a skin brightener, protects from UV damage, stimulates collagen production and strengthens capillary walls.

The master anti-oxidant **Glutathione** neutralizes the harmful effects of free radicals slowing down the aging process and preventing wrinkles.

Alone the ingredients are powerful, but the combination produces amazing results:

- Improves the overall tone and texture of your skin
- Lightens and brightens your skin
- Reduces the appearance of pore size
- Softens fine lines and wrinkles
- Reduces hyperpigmentation and acne scars
- Improves acneic skin conditions and melasma

You will love the amazing results of **The Perfect Derma™ Peel!**

Glutathione (GSH) -The MASTER Antioxidant!

Glutathione (GSH) is a naturally occurring tri-peptide molecule produced by the liver that is found inside every cell of the body. It is made up of three amino acids, Glutamic acid (Glutamate), Cysteine and Glycine. It is involved in protecting cells from environmental toxins, drugs and alcohol as well as toxins produced by the body itself as a result of normal metabolism. Depletion of glutathione leads to cell death (apoptosis).

BENEFITS OF GLUTATHIONE

- Maintains the cell's health and performance by neutralizing free radicals and helps the liver remove toxins.
- Is one of the most powerful antioxidants in the body as it is the only one that is intracellular (it acts within the cell).
- Is unique in that it acts as an **antioxidant to other antioxidants**, as it has the ability to maximize the activity of:
 - Vitamin C
 - Vitamin E
 - Selenium
 - Grape seed extract
 - Alpha-lipoic acid
 - CoQ10
- Assists with DNA and protein synthesis (the creation of collagen and elastin).
- Helps with the body's immune function and controls inflammation.
- Plays a key role in the pigmentation process called Melanogenesis.
- Glutathione levels decrease with age which is why glutathione pre-cursor supplements are taken and it is topically applied in skin care products to encourage the body to make new glutathione.

Antioxidants have extra electrons; they donate an electron to an unpaired free radical molecule.

TESTIMONIALS

SKINCARE PROFESSIONALS:

"I am happy with this product and the results I've seen. It is a deeper peel than others, yet not as painful. I would definitely recommend this peel!"

-Elena Skelton, Dr. David Bray Jr., Beach Cities Plastic Surgery

"I do a lot of these peels... It is extremely predictable with consistent results and great lifting and tightening qualities. I am happy with the results and consistency of peeling with this peel. I have never had a client who didn't like the results!"

-Pam Bennett, RN, Skintastic Skin Spa

"It's the best peel I have ever used! My clients love it!"

-Dr. Sandra Knight

PATIENTS:

"The Perfect Derma Peel was just that – PERFECT! It was painless with little down time. My skin was simply radiant afterwards. I noticed the overall tone was brighter and more even. It looked and felt incredibly soft and smooth. My skin had such a nice healthy glow!"

-Amber

"My acne is under control now, scars and spots are faded and I have a dewy glow. My skin looks so much better."

-Kelly

"After one application of The Perfect Derma Peel, I noticed that my sunspots have become a lighter shade and my skin tone seemed more evened out."

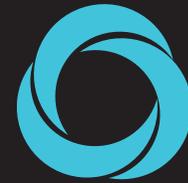

-Allison

Many patients see a dramatic improvement with one treatment. In some cases, a series of peels is recommended for optimal results.

PROBLEM SKIN meets its match!

The Perfect Derma™ Plus booster contains the same synergistic blend of ingredients as The Perfect Derma™ Peel but at higher concentrations. This booster provides superior results for patients with very oily or resilient skin, and is highly effective for stubborn hyper pigmentation and melasma, acne scars, actinic keratosis and sun damage on the face, chest, hands, arms and back.

The Perfect Derma™ Plus booster is mixed with The Perfect Derma Peel, and is not to be used as a spot treatment on its own.

TRANSFORM your skin in just one week!

Bella Medical Products is dedicated to creating innovative anti aging products for the aesthetic medical industry. **The Perfect Derma™ Peel** is our premier product and is the most advanced, effective medical grade peel available.

The Perfect Derma Peel's exclusive formulation provides superior results for aging skin, acne, melasma, hyper pigmentation and many common skin concerns. It is also virtually painless with little downtime and offers an easy, consistent peeling process for **All Skin Types and Ethnicities**.

Our unique blend of acids and antioxidants will:

- Improve the clarity, tone and texture of the skin
- Remove or reduce hyper pigmentation, including melasma
- Control acne and improve the appearance of acne scars
- Reduce the appearance of pore size
- Soften fine lines and wrinkles
- Stimulate the production of collagen and elastin for firmer, more youthful skin

The Perfect Derma™ Peel may be used to treat body areas such as the chest, arms, hands and back.

KEY INGREDIENTS:

TCA, Retinoic, Salicylic & Kojic Acids, Phenol, Glutathione and Vitamin C.

Glutathione is a well documented anti aging antioxidant produced by the human body, but production diminishes with age and exposure to environmental stress. This antioxidant fights free radical damage, enhances cellular health and inhibits the production of melanin for clearer, brighter skin. **The Perfect Derma™ Peel** is the only peel available that features Glutathione.

Use the Patient Home Care Kit (included with your treatment) to properly care for your skin post peel. This kit includes two Post Peel Towelettes and The Perfect Derma Moisturizer. The **Patient Home Care Kit** is designed to ensure an easy peel process and optimal results.
